Tips for Mask Use for Staff, Patients and Visitors

Masks are optional, but strongly encouraged for patients and visitors throughout the building. All staff must wear procedure masks throughout the building.

- Clean hands before and after touching mask.

- Mask should always cover nose and chin.
- Mask should not hang on one ear, hang around neck or be pushed to forehead.
- Wear inside facing you and press to fit mask to your nose.

- Avoid touching mask.

- Remove and store mask before eating and drinking.

- Store mask safely if it needs to be reused.
  - Keep it clean and dry.

- Discard mask if it becomes wet or soiled.
  - Discard mask when leaving building.

Whenever possible, please keep a physical distance of 6 feet.
